Activity Log

	Date	Work completed	Skills and personal attributes gained or used	Hours worked
1	17.05.16 - 31.05.16	T shirt design and order inc draft design, file handling ie vectorisation of logo's, organisation and ordering of shirts, arranging printing, delivering to and pick up of final product from printers	Graphic design and IT skills. Logistical and organisational skills.	8
2	12/06/2016 - 28/06/2016	Sumatra	On this SERT I learned many valuable skills. I was able to improve my ability to work, live and get along with a large group of people with many different personalities, for an extended period, often living in difficult circumstances, such as within the rainforest. I also learned field skills such as the fundamentals of the audio array method (spatial explicit capture-recapture) for assessing primate population density, primate group position triangulation and butterfly trapping. During the trip I was also able to conduct questionnaire surveys with tourists, which helped improve my confidence and social interaction skills. I also took many photos on the trip using my photography skills, which will hopefully be utilized by the LEAP website.	112
3	01/07/2016	photo editing	Photography, I.T skills.	4
4	21/07/2016-28/07/16	Reflective essay / placement report	Essay / report writing skills	10
